

## 2026 AFRC Reunion March 9-13, 2026

Greetings AFRC Friends and Folks from Teton Valley, Idaho. The location for our 52nd Annual AFRC Ski Reunion.

The dates for the Reunion are Monday, March 9th with checkout on Friday March 13th. Like the last Reunion here in 2023 we will be staying at the very convenient Cobblestone Hotel in lovely downtown Victor. Regular shuttle up to Grand Targhee and back is readily available in easy walking distance from The Cobblestone. Regretfully the hotel does not have a hot tub but there is a nice pool with heated water. As was the case in 2023, the Monday night "Meet and Greet" will be held right next door at what was The Wildlife Pizza and Beer but is now Sergios Mexican Restaurant. A great spot and I expect that they are going to do an excellent job of hosting us that first night.

Unlike the last Reunion held here, there will be 2 nights, Tuesday and Wednesday, which we will be out eating on our own dime at the one of eateries available in Driggs or Victor. Of course there is also the option of Jackson Hole, 30 miles over Teton Pass. We will put a list together of some of the recommended places here in the Valley. Then on Thursday night, the last night we are together, we will once again cross the highway from the hotel, using the crosswalk of course and settle in for some of the fine food, drink and hospitality of The Knotty Pine. The folks there are looking forward to hosting us once again and have a delicious menu planned for that evening. Once we have enjoyed our dinners, Joe will take to the stage and no doubt say a few words and then conduct the "election" to determine where next year's Reunion is going happen. So, if you want the Reunion held in your area in 2027 bring your best "pitch" and you will get the chance to make it.

Please use the attached registration form and get your "Party \$\$" into Joe as soon as you can...like sooner rather than later. It will be much appreciated. Until then be safe, be well, pray for snow and we will see you in March!

Registration form is also on [afrcski.com](http://afrcski.com)
